MÅNS ENGLUND

Student - Information & Communication technology

EDUCATION

M.Sc. in Information & Communication Technology 2020 - present
Lund University, Faculty of Engineering

Relevant completed courses: Web Development , Web Security,
Computer Security, Database Technology, Multithreaded Programming

Natural Science Program 2015 - 2018
Sigrid Rudebecks Gymnasium (Gothenburg)

EXPERIENCE

Seasonal Employment July - Aug. 2021 - 2023
Ica Maxi Gothenburg

Temporarily worked as a shop assistant during the summer. I coordinated and had daily responsibility for the dry goods department.

Supervisor Online Department Mars - June 2020
Ica Maxi Gothenburg

Responsible for coordinating the store's online order service and customer contact for the department. I was involved in the development of the department and the management of the increased demand due to the pandemic.

Store Assistant - Dry Foods Sep 2018 - Mars 2020
Ica Maxi Gothenburg

The job duties primarily involved shelving goods and customer contact. After a year, the responsibilities were expanded to include driving a forklift and coordinating the pick-up team.

PROJECTS

Wild West Duel, School Project
Java, Android, Firebase

A dueling game with an online component. Developed the shooting mechanics, various frontend views, and assisted with the database.

Personal Website (Under development)
React+Vite, Tailwind

A personal website built from the ground up to better showcase various projects I have completed. The website's design and animations were created using Tailwind.

Database for a cookie factory, School Project
Python, SQL

A database for a cookie factory that managed everything from ingredients to delivery. A REST API in Python was employed for communication with the database.
